NO METHOD OF REPRODUCTION, HOWEVER WELL DONE, CAN TRUTHFULLY REFLECT THE CLARITY, BRILLIANCE AND COLOR OF THE FINEST MODERN AMERICAN GLASSWARE—FOSTORIA. THE PHOTOGRAPHS IN THIS CATALOG, THEREFORE, CANNOT PORTRAY THE PERFECTION OF THE GLASS ITSELF, OR MIRROR THE RADIANT LOVELINESS OF ITS COLOR.

It was Fostoria who originated the complete dinner service of glass, which has been accepted by authorities on table decoration everywhere. It is styled to sell, because it conforms to the new trend of the times for beauty in merchandise.

But Fostoria does not exist merely to be beautiful. It is as durable as china and is absolutely practicable for serving hot and cold foods. No amount of hard wear or usage can dim its original lustre.

The fact that the score of different materials used in the making of Fostoria glass must all measure up to the same high standard of purity . . . that they must pass rigorous tests in the thoroughly equipped Fostoria chemical laboratory . . . that the clarity, brilliance and tint of the glass must conform to the specifications set by the designers — is responsible for the vision of the artist becoming a reality.

Thus the name, "Fostoria," has become a symbol in the public mind for the finest modern American glass. This has been accomplished first by the beauty and high quality of every piece of glass that bears the Fostoria label . . . by sound styling and the knowledge that merchandise in good taste sells best.

It is our earnest desire to do everything we can to help you increase your sales of Fostoria glassware, and to that end you will always find ready assistance and advice by writing to the Fostoria Glass Company, Moundsville, West Virginia.

« HOW TO USE THIS CATALOG »

This catalog has been designed for only one reason, and that is to be of service to you and the other retailers of Fostoria glassware.

In looseleaf form, with an attractive and substantial cover, it enables you to have a complete and up-to-the minute catalog at all times. As new designs are put on the market we will furnish additional sheets, properly identified. If you will insert these new sheets as soon as they are received you will have, at all times, a catalog ready to be of the greatest service to you.

In the Etched and Cut divisions we have tried to show the lines as complete as possible, and in these pages you will find almost every piece illustrated, either in the main group or in the side panels. The illustrations in the panels do not attempt to show the design or the actual size of the piece, but are intended to show only the shape. A complete list of all the items in the line appears on the page with small numbers which identify the illustrated pieces.

In the sections featuring Plain Dinnerware and Decorative Pieces only one illustration is used where the same item is made in several sizes. But all the sizes are listed in the type matter describing the illustration.

When ordering, it is very important that you copy exactly, the number of the item, the size, the name, the color and the design number or name.

Since stemware is made in several combinations, it is imperative that you state whether or not the line you wish is to be solid color, colored base or colored bowl.

Example: 5082 Goblet, Green Base
5082 Goblet, Green Bowl
5082 Goblet, Solid Green

A careful observance of these suggestions will enable us to fill your orders with greater accuracy and promptness.
